*Some Problems in Information Science with Emphasis on Adaptation to  
Use Through Man-Machine Interaction.*

Final Report for Air Force Cambridge Research Laboratory (Vol. I of II).  
IBM Th. J. Watson Research Center, Yorktown Heights, NY, 1964.  
Appendix IV A. 113-149.

This paper is a substantially revised and updated version of a research report which was undertaken, in part, at the IBM Th. J. Watson Research Center during the summer of 1963 with the support of contract AF19(628)-2752.

The original version of the first working paper in the theory of orientation was read at the annual meeting of the American Association for the Advancement of Science, Philadelphia PA, 30.12.1962 under the title “Formal analysis of ideological components of behavior”. R. JUNG (1962d).
