CSR PUBLICATIONS

A partial list.

All CSR Bulletins and CSR Working Papers were deposited in the University of Alberta Library, where they should be available.

A copy of some can be obtained from
information@systemsresearch.cz .

CSR BULLETINS:

- BUL86-2 CSR Bulletin No. 2, February 1986.
- BUL86-3 CSR Bulletin No. 3, April 1986.
- BUL86-4 CSR Bulletin No. 4, September 1986.
- BUL86-5 CSR Bulletin No. 5, November 1986.

Further Bulletins were available electronically to University of Alberta MTS users on MTS in LIST CSR2:BULLETIN .

CSR WORKING PAPERS:

SERIES EDITOR: RICHARD JUNG

- 86-1 JAMES M. WHITE:
The family system of interpersonal perception: Interaction as the control of perception.
February 1986.

- 86-2 CHARLES HUMPHREY:
Experiences in managing and evaluating a computer conference.
September 1986.
- 86-3 PAUL VAN GEERT:
Erikson's eight ages of man: A system-theoretic approach to the structure of
a developmental theory.
October 1986.
- 86-4 *Interaction: The Control of Perception.*
WILLIAM T. POWERS:
Commentary on a paper by J.M. White.
JAMES M. WHITE:
Reply to a comment by W.T. Powers.
November 1986.
- 86-5 GLORIA MARK AND MANFRED KOCHEN:
Representation and reasoning in clinical tomography.
December 1986.
- 87-1 *Constructivism.*
ERNST VON GLASERSFELD:
Wissen ohne Erkenntnis.
Declaration of the American Society for Cybernetics.
April 1987.
- 87-2 KATHLEEN FORSYTHE:
In Search of Unicorns: Towards an Epistemology of the Imagination.
The Secret Garden: Learning as the perception of newness.
Journeys to the lands of new: Beyond information.
Cathedrals in the mind: The architecture of metaphor in understanding
learning.
Isophor: Poesis of experience.
- 87-3 JOHN DAVID SINCLAIR:
A systems analysis of memory storage.
- 88-1 JOACHIM MOWITZ AND ARNO GOUDSMIT:
A model for organizational closure in autonomous systems: Ingredients of
a self-constructing automaton.
January 1988.
- 89-2 THADDUS E. WECKOWICZ:
Ludwig von Bertalanffy (1901-1972): A Pioneer of General Systems Theory.
February 1989.
[Weckowicz on Bertalanffy](#)
- 90-4 OTTO OESTERLE:
On general principles of evolutionics.
October 1990.
